

# THE MEADOWLANDS PARKWAY BRIDGE

Secaucus, New Jersey

## About the Project

Hudson County in coordination with the North Jersey Transportation Planning Authority (NJTPA) and the New Jersey Department of Transportation (NJDOT) are conducting a Local Concept Development (LCD) study to determine appropriate improvements to the Meadowlands Parkway Bridge. The project goals are to enhance safety and improve operations for all modes of transportation.

Communication with the local officials, stakeholders, road users and community will be necessary to advise on the need of the project and the impacts that they may encounter on this heavily used roadway.

## Get Involved

Members of the public are encouraged to participate in the study by attending meetings, becoming a stakeholder, and taking the community input survey on our website: <https://www.meadowlandsparkwaybridge.com/survey>. Tell us how you use the Meadowlands Parkway Bridge, and what improvements you would like to see in the future.

## Contact Us

We encourage community members to voice their concerns and contribute suggestions. For questions or comments, please fill in the comment form on our website or contact one of the Project Team members below:
